

## MINT FLAVOURED GRANULES USING XYLISORB<sup>®</sup> XYLITOL AND NUTRIOSE<sup>®</sup> FB WHEAT DEXTRIN

### FORMULA

	<b>% (By weight)</b>
XYLISORB <sup>®</sup> 300 xylitol	87.50
NUTRIOSE <sup>®</sup> FB wheat dextrin	10.00
Peppermint powder flavour	1.25
Menthol powder flavour	0.25
Sugar ester tablet lubricant	1.00
	100.00

### METHOD

- Prepare the binding solution by dissolving 100 g of NUTRIOSE<sup>®</sup> FB wheat dextrin in 100 g water to obtain a 50 % DS solution.
- Adjust the power of the fluidized bed dryer-granulator to reach the correct fluidisation of the XYLISORB<sup>®</sup> 300 Xylitol (875 g).
- Set the temperature at 60°C.
- Spray slowly the solution of NUTRIOSE<sup>®</sup> FB wheat dextrin to obtain granules.
- Dry the granules for 60 minutes after spraying ends.
- Add the powdered flavours and mix for 2 minutes.
